General
You can get IP settings assigned automatically if your network supports this capability. Otherwise, you need to ask your network administrator for the appropriate IP settings.
Obtain an IP address automatically
Use the following IP address:
IP address: 172 . 18 . 10 . 15
Subnet mask: 255 . 255 . 255 . 0
Default gateway: 172 . 18 . 10 . 1
Obtain DNS server address automatically
Use the following DNS server addresses:
Preferred DNS server: 127 . 0 . 0 . 1
Alternate DNS server:

A justified reservation would be that the Bloemfontein Branch may have a printer that requires a fixed and predictable IP address which is assigned automatically with DHCP and this allows users on the network to connect to it without any issues.

Force a specific visual style file or force Windows Classic
Edit policy setting
Requirements:
At least Windows Server 2003 operating systems or Windows XP Professional
Description:
This setting allows you to force a specific visual style file by entering the path (location) of the visual style file.
This can be a local computer visual style (aero.msstyles), or a file located on a remote server using a UNC path (\\Server\Share\aero.msstyles).
If you enable this setting, the visual style file that you specify will be used. Also, a user may not apply a different visual style when changing themes.
